

To Parents/Carers

19th July 2023

Dear Parent/Carer,

ICT Acceptable Use Agreement

To ensure all pupils, students and parents are aware of our expectations regarding the use of our ICT system and the internet, the attached agreement sets out how to stay safe, how to keep our systems secure and how to use our systems responsibly.

These standards apply whenever pupils/students use personal or school devices at school. These principles are also applicable at home.

The school will investigate incidences where the acceptable use agreement is not adhered to, whether inside or outside school, where they affect the school community. Sanctions may be given, including removing access to the internet or our ICT systems.

Please sit down with your child and read through the agreement together.

All pupils and students must sign the agreement prior to the start of the new academic year.

Please log onto ParentPay <https://www.parentpay.com/> and ensure both you and your child agree to the principles set out.

If you have any questions, please do not hesitate to contact me.

Yours sincerely,

James Robinson
Assistant Headteacher
